KONDETI SWATHI SRIDEVI

TECHNOLOGY PROFESSIONAL | REACT, CLOUD & DEVOPS FOUNDATIONS

swathisridevikondeti@gmail.com | Dowlaiswaram, Andhra Pradesh - 533125

PROFESSIONAL SUMMARY

Technology professional with 3+ years of enterprise experience at Accenture in Salesforce Health Cloud quality delivery. Combines hands-on requirements analysis, defect investigation, regression validation, and release support with foundational capabilities in React front-end development, cloud technologies, software delivery, and DevOps practices. Brings a quality-first approach to understanding user interfaces, application behavior, deployment readiness, and reliable software delivery across the SDLC.

CORE COMPETENCIES

Front-End Development: React Fundamentals | JavaScript | HTML5 | CSS3 | Responsive Web Design

Software Delivery: Version Control with Git | REST API Fundamentals | SDLC | Application Debugging

Cloud Technologies: AWS & Azure Fundamentals | Compute | Storage | Networking Concepts

DevOps Practices: CI/CD Fundamentals | Docker & Container Concepts | Deployment | Monitoring

TARGET PROFILE

Targeting React front-end, cloud support, and junior DevOps opportunities where enterprise delivery experience, application-quality expertise, and developing technical capabilities can contribute to reliable software delivery.

PROFESSIONAL EXPERIENCE

Accenture | Technology Professional - Salesforce Health Cloud

Sep 2023 - Present

- Evaluate application interfaces and user workflows with a front-end quality perspective, applying knowledge of React fundamentals, JavaScript, HTML5, CSS3, and responsive web design concepts.
- Analyze application behavior and functional requirements using software delivery fundamentals, including SDLC practices, structured debugging, REST API concepts, and version-control awareness with Git.
- Investigate defects by reproducing issues, comparing expected and actual behavior, reviewing data flow, and coordinating with delivery teams to support reliable application fixes.
- Support release validation across enterprise application environments, building practical understanding of cloud concepts such as compute, storage, networking, deployment environments, and application availability.
- Contribute to release readiness through regression validation and cross-team coordination while developing knowledge of CI/CD pipelines, Docker and container concepts, deployment practices, and application monitoring.
- Maintain test evidence, track issues through closure, and verify that application changes remain stable across existing workflows, reinforcing a quality-first approach to front-end, cloud, and DevOps delivery.

PROJECT EXPERIENCE

CalOptima | Salesforce Health Cloud

- Performed manual and functional testing for a healthcare-focused Salesforce Health Cloud implementation.
- Executed planned test coverage, reported defects, validated fixes, and supported regression testing for application changes.

CSH | Salesforce Health Cloud

- Supported Salesforce Health Cloud testing from the beginning of the Accenture tenure.
- Prepared and executed test cases, captured results and evidence, and followed defects through validation and closure.

EDUCATION

Qualification	Institution / University	Period	Result
MBA - Human Resource Management	Andhra University	Jan 2026	3.74 CGPA; First Class with Distinction
BCA	Aditya Degree College, Rajahmundry | Adikavi Nannayya University	2019-2022	9.0 CGPA
Intermediate - BiPC	Sri Chaitanya Junior Kalasala, Rajahmundry	2016-2018	9.21 CGPA
SSC	Sri Harshavardhana Public School, Rajahmundry	2015-2016	9.5 CGPA

PROFESSIONAL STRENGTHS

Analytical Thinking | Attention to Detail | Quick Learning | Communication | Team Collaboration
